Education

Georgia Institute of Technology Atlanta, GA

B.S. Computational Media (Media & Games), Minor in Industrial Design | GPA: 3.62/4.00 *Expected May 2028*

- **Focus:** Bridging human-centered physical/digital product design with software and real-time graphics
- **Relevant Coursework:** Artificial Intelligence, Data Structures & Algorithms, OOP, Linear Algebra

Experience

Global Product & Design Senior Ambassador July 2026 – Present

Meitu Inc. *Atlanta, GA*

- Evaluate AI editing features across Meitu's apps (10M+ users), auditing UX flows and gaps vs. competitors
- Prototype research-backed features in Figma (1.3x avg. report bonus); **one feature shipped to production**
- Collaborate bilingually (English/Mandarin) with China-based product teams on design recommendations

Undergraduate Student Researcher Aug. 2026 – Present

TokenVerse – GT Expressive Machinery Lab *Atlanta, GA*

- Translating 2D concept art into rigged 3D models and stylized environments that visualize LLM processes
- Authoring URP Shader Graphs and animations in Unity, targeting 30%+ higher concept retention
- Conducting user research and playtest feedback sessions; contributing to a paper for CHI PLAY 2026

Code and 3D Modeling Instructor June 2026 – Aug. 2026

iCode San Ramon *San Ramon, CA*

- Taught 3D modeling and low-poly topology (CAD, Blender) to weekly classes of 8–10 K-12 students
- Led Python drone-camera projects with real-time face tracking, photo capture, and camera filters

Leadership

Project Lead – 40+ Person Team Aug. 2026 – Present

Unraveling – Georgia Tech Video Game Development Club *Atlanta, GA*

- Leading 40+ developers and artists across 3D, VFX, animation, and UI teams via weekly GitHub sprint plans
- Authored the Game Design Document and art style guide, aligning visual direction and UX decisions team-wide
- Co-designed a particle mechanic (+20% retention); modeling 3D characters in Blender and Shader Graph VFX

Design Board Member Aug. 2025 – Present

Chinese Student Association – Georgia Tech *Atlanta, GA*

- Design branding and assets for 1,000+ attendee events across 5 committees; original merch drives $1k+/yr sales

Projects

CareBear – W@CC Hackathon | *Figma, Gemini API, Vercel, NFC* Oct. 2026

- Designed an accessible mobile-first handoff app for pediatric caregivers with an NFC tap-to-log task ledger
- Integrated Gemini AI to summarize handoff notes and auto-organize the shared care calendar between shifts
- Created mascot stickers to cover NFC tags as friendly tap targets and produced a motion-graphic showreel

Current Crisis | *Unity, C#, Blender, MagicaVoxel, Figma, Aseprite* Aug. 2025 – Dec. 2025

- Modeled 3D voxel environment assets and iterated UI/gameplay flow over 3 playtest cycles, raising completion 20%

SpeechWrite | *Figma, React, Python, OpenAI Whisper* Feb. 2026

- Designed and prototyped the UI and an interactive 3D globe in Figma for exploring speech-accuracy data
- Engineered a full-stack analytics tool (Python backend, React front-end), reducing accent-bias error rates 40%

Skills

Product & UX Design: Figma, Wireframing, Prototyping, User Research, Usability Testing, Adobe CC
AI Product Analysis: AI Feature Evaluation, Competitive Analysis, Data Visualization, Figma AI
3D Design & Technical Art: Blender (Low-Poly, Rigging, Animation), MagicaVoxel, CAD, URP Shader Graph, VFX
Programming & Engines: Unity, C#, Python, Java, JavaScript, React, HTML/CSS, C, Git
Languages: English (Native), Mandarin Chinese (Fluent – Spoken & Written)
